1 PIECE FITTINGS

'Easy to use & easy to choose!' BOA Recommends 1-Piece

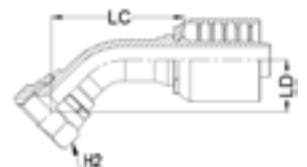

BOA 1-piece fittings are the perfect solution whether you're new to the hydraulics industry, an old hand or just want simplicity!

The ferrule is pre-crimped to the hose-tail so there's no risk of collar misalignment, and you'll always have the correct ferrule as it's permanently attached to the hose-tail.

BOA 1-piece fittings are a perfect match for both Yokohama and Silflo hydraulic hoses.
